Fume Hood Manufacturers in Chennai – Labinterior

Labinterior is one of the leading **fume hood manufacturers in Chennai**, dedicated to delivering high-quality, durable, and safe laboratory ventilation solutions. Our fume hoods are designed to ensure maximum protection for lab personnel by effectively capturing and exhausting hazardous fumes, vapors, and airborne particles from laboratory environments.

With years of expertise in **lab furniture design and manufacturing**, Labinterior has built a reputation for providing **custom-engineered fume hoods** that meet international safety and performance standards. We serve a wide range of sectors including **pharmaceuticals, biotechnology, educational institutions, chemical research, and industrial laboratories**.

Our Product Range Includes:

- **Ducted Fume Hoods** – Ideal for heavy-duty applications and consistent ventilation.
- **Ductless Fume Hoods** – Perfect for flexible lab setups and easy installation.
- **Walk-in Fume Hoods** – Designed for large equipment and high-volume operations.

- **Portable Fume Hoods** – Compact, mobile, and user-friendly for small-scale labs.

Why Choose Labinterior:

- Precision-engineered and corrosion-resistant materials
- Ergonomic and energy-efficient designs
- Compliance with global safety standards (ASHRAE, SEFA)
- Custom dimensions and configurations available
- Timely delivery and expert installation support

Applications:

Our fume hoods are used in:

- Chemical analysis laboratories
- Research and development centers
- Universities and educational institutions
- Industrial quality control labs
- Pharmaceutical and biotechnology facilities

Conclusion:

At **Labinterior**, we understand that laboratory safety and functionality go hand in hand. As one of the top **fume hood manufacturers in Chennai**, we are committed to designing and

delivering high-performance fume extraction systems that enhance productivity and ensure a safe working environment. Choose **Labinterior** for superior craftsmanship, reliability, and innovation in every product.
